

KRISHNENDU S

Software Development Engineer | Backend, Microservices & Frontend | Java | Python | API & Cloud

+91 9746212640 @ krishnendupalazhi@gmail.com https://www.linkedin.com/in/krishnendu-s-897221239/ https://leetcode.com/u/krishnendusarathkumar/ Hyderabad, India https://github.com/KRISHNENDU-S

SUMMARY

Software Developer with hands-on experience at Oracle, specializing in microservices architecture, REST APIs, backend development, and test automation frameworks. Skilled in Java, Python, C++, Cypress, Oracle Cloud, Git, and OJET, with experience in API testing, CI/CD, Agile, and distributed systems. Strong foundation in Data Structures, OOP, DBMS, OS, and system design. Seeking SDE / Backend / Full-Stack / Platform roles.

EXPERIENCE

Associate Software Developer

Oracle 08/2025 - 03/2026 Hyderabad

- Engineered **Cypress automation frameworks**, increasing test coverage by 20–30% and improving application reliability across multiple product releases.
- Resolved **critical production issues**, improving system performance by 20% and minimizing downtime across core application services.
- Built **scalable microservices** and **API-driven systems**, improving service response time by 15% through optimized backend integrations.
- Collaborated with **cross-functional teams** to deliver 10+ production-ready features, accelerating release cycles by 20% in Agile environments.
- Optimized **workflows**, reducing manual effort by 25% and improving overall delivery efficiency.

Project Intern

Oracle 01/2025 - 07/2025 Hyderabad

- Developed and deployed **AI chatbot** using **Oracle Digital Assistant**, achieving ~99% accuracy via vectorized PDF training and query optimization.
- Led **end-to-end chatbot integration** into **production systems**, reducing manual support dependency by 40% through automated query resolution.
- Designed **dynamic UI workflows** using **Oracle JET (OJET)**, improving user interaction efficiency by 25% across web-based application interfaces.

Software Project Intern

SBL 08/2023 - 09/2023 Kochi, Kerala

- Contributed to development of **application modules**, improving feature delivery speed by 15% within Agile product lifecycle.

PROJECTS

Brain-Computer Interface (BCI) - Hand Movement Interpretation

- Developed an interpretable ML solution using Python MNE to analyze EEG signals for accurate hand-grasp movement detection.
- Contributed ~70% to model development and ~90% to analysis, enhancing explainability of brain-signal classification.

Deep Learning for Age & Gender Prediction (Published)

https://ieeexplore.ieee.org/abstract/document/10724502

- Designed deep learning models using TensorFlow, improving architectural efficiency and performance.
- Reduced computational cost by 25% while maintaining ~85% accuracy, enabling more efficient model deployment.

Heart Failure Prediction using Machine Learning (Published)

https://ieeexplore.ieee.org/abstract/document/10724418

- Built and evaluated ML models using Python and Keras, applying preprocessing and feature engineering on healthcare datasets.
- Improved predictive performance and decision-making efficiency by ~50% through enhanced model selection.

EMERGIFY - Real-Time Emergency Response Application (Published)

https://ieeexplore.ieee.org/abstract/document/11005046

- Created a real-time emergency reporting mobile app using Flutter with Firebase backend for instant alerts and communication.
- Enhanced emergency response efficiency by ~40% through scalable real-time data handling and notification systems.

CERTIFICATIONS

Oracle OCI AI Foundations Associate – Mar 2026

Machine Learning Specialization – Coursera

Deep Learning with PyTorch – Coursera

Python for Data Science, AI & Development – IBM

EDUCATION

B.Tech in Computer Science Engineering

Amrita Vishwa Vidyapeetham

08/2021 - 05/2025

Amritapuri, India

CGPA

9.5 / 10

- Rank: **6th in batch** | **Class Topper**

VOLUNTEERING

Oracle Volunteering Initiative

Delivered sessions on ethical AI usage, promoting responsible technology adoption

Live In Labs – MALEGAON

Led community-driven initiatives across villages, engaging 70+ residents and increasing participation by 40%, with outcomes published in a Q1 journal.

Electro savvy (SSR Initiative)

Conducted tech workshops, facilitating 3+ sessions to improve digital literacy

PUBLICATIONS

IEEE & ScienceDirect publications in AI, ML & social impact research

Topics: Emergency systems, deep learning optimization, healthcare ML

ACHIEVEMENTS & LEADERSHIP

Directed team of 6 in VIDYUT MULTIFEST, achieving 100+ registrations in 3 days

Head Girl (2019–20) | House Captain (multiple years)

SKILLS

Programming Languages & Scripting

Java, Python, C++, SQL, JavaScript, TypeScript, Shell Scripting, Bash, Object-Oriented Programming (OOP), Data Structures, Algorithm Design, Problem Solving

Testing, Automation & Quality Engineering

Cypress, E2E & API Testing, Automation Frameworks, Test Case Design, Regression & Integration Testing, Functional Testing, Debugging, QA, Performance Testing

Web & Application Development

Frontend Development, UI Development, Oracle JET (OJET), Flutter, Responsive Design, Component-Based Architecture, REST API Integration (Basic), Event-Driven Programming (Basic), Web Performance

Cloud, Tools & DevOps

Oracle Cloud Infrastructure (OCI), Git, GitHub, Version Control, CI/CD Concepts, Docker (Basics), Cloud-Based Development, Monitoring & Logging, Agile Tools, Build & Release Management

Backend & Microservices Architecture

Microservices Architecture, REST APIs, API Testing, HELIDON (Beginner), Backend Development, SOA, API Design, Auth & Authorization, Distributed Systems, Scalable Systems, Production Debugging

Core Computer Science Fundamentals

Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, Complexity Analysis, Concurrency & Multithreading, System Design
